

JAMES STONE IN COURT TODAY.

Sentenced to 60 Days for Criminal Conspiracy.

CHARLES GOLDIE RELEASED

James Stone was arraigned before Judge Morse this morning on the charge of criminal conspiracy. He entered a plea of guilty, and was sentenced to serve 60 days in the county jail. Stone, together with Charles Goldie and an unknown man, worked the gold mine on Frank Dedericks and fled him out of \$30. The crime was committed on June 12. A. S. Fowler, defendant's attorney, made a plea for leniency, stating that defendant is 54 years of age and is in poor health; that by pleading guilty he had saved the state the expense of a trial. District Atty. Elchorn stated that the money had been recovered and that the state had been saved the expense of a trial, so he thought a light sentence would answer the purpose.

GOLDIE RELEASED.
After sentence was passed, Mr. Elchorn asked that the complaint against Charles Goldie, Stone's confederate, be dismissed, as he did not think there was sufficient evidence to convict the defendant. Judge Morse ordered the complaint dismissed and the defendant released from custody.

CHANGED TO PETIT LARCENY.
Emanuel Wadstrom, who, on last Saturday, was arraigned before Judge Stewart on the charge of grand larceny, appeared before Judge Morse and asked to withdraw his former plea of not guilty. Permission was given him to withdraw his plea, which Dist. Atty. Elchorn changed the charge in the information from grand larceny to petit larceny. Wadstrom then entered a plea of guilty to the lesser crime, and, waiving time for sentence, was given 90 days in the county jail. Defendant on May 30 stole \$14 from John Ranta.

CHIN PLEADS NOT GUILTY.
Chin Lee entered his plea of not guilty to the charge of receiving stolen property. Chin received a \$250 seal-skin coat, stolen from Mrs. Fred Stauffer by Carl Edmanson.

ROSCAMP VS ROSCAMP.

Wife's Petition for Temporary Alimony Resisted by Plaintiff.

Judge Hall yesterday was engaged in hearing the motion for temporary alimony, attorney's fees and suit money in the divorce case of Thomas Roscamp vs. Henrietta Roscamp. Defendant, by her attorney, W. R. Hutchison, filed a motion for \$100 per month temporary alimony, \$300 as attorney's fees, and \$50 suit money. Mrs. Roscamp alleged in her motion that her husband was worth \$25,000, and that he had left her without funds to defend the suit or provide herself with the common necessities of life. Furthermore, she claimed he had left her without any means of support. Hutchison, by his attorneys, Snyder, Westervelt, Snyder & Wright, filed an answer to the petition of his wife for temporary alimony, and a motion for which he denies that he is worth in excess of \$5,000. He claims he is willing to provide her with money for her support but is unwilling to provide her with money to keep him in pocket money. He is of the opinion that it does not require as much money as his wife asks for to support her and carry on the expenses of the suit, and he asks that the consideration of plaintiff's motion be postponed until the final hearing of the suit.

Judge Hall this afternoon partially allowed defendant's motion for temporary alimony and suit money. He ordered Roscamp to pay his wife \$75 as attorney's fees, \$50 for suit money and \$30 per month temporary alimony, the payment to be made on Aug. 1.

To Foreclose Mortgage.

John Bunce today filed suit in the District court against Margaret E. and Henry C. Wallace to foreclose a mortgage on 32 1/2 lots of 10 rods of ground in lot 4, block 14, plat F. The mortgage was given to secure the payment of a note of defendants for \$2,500, of which amount \$2,100 is still due and unpaid. Judgment is asked for \$2,100, plus interest at the rate of 8 per cent from Jan. 1, 1902, and \$100 as attorney's fees.

To Foreclose Lien.

A. P. Magni and Andrew Lork today commenced an action against John B. Cosgrove to foreclose a mechanic's lien on the west four rods of lot 7, block 61, plat B. The amount of plaintiff's claim is \$87.90 and is due for materials and labor performed in painting defendant's house. Judgment is asked for \$87.90, and \$25 as attorney's fees and costs of suit.

SALOON HELD UP.

Four alleged miners walked into O'Reilly's saloon on State street last night and held up the bartender, robbing him of \$10 and some liquor. The men had been in the place drinking for some time and waited until nearly everybody had gone. Two of the men went into the rear of the saloon and remained so long that the bartender became suspicious. He went after them but when he returned he found the other two in the act of looting the cash drawer. The bartender seized a heavy chain and landed a blow on the face of one of the robbers. They then attacked him and began to chuck beer glasses in the direction of the bartender's head. The latter dodged as best he could until help arrived when the robbers seized several bottles of liquor and dashed to the street and escaped. The police were notified, and are now in hot pursuit.

FIREMAN'S BARN BURNS.

Small blaze at an early hour this morning. At 6:55 this morning a barn belonging to R. W. McAllister, 511 south Fifth East street, was discovered on fire and a telephone alarm was immediately sent in. The apparatus from No. 4 responded quickly and was soon on the scene. The barn was valued at only \$20.00 and the blaze was extinguished with a loss of only about \$5.00. The owner of the building was at one time assistant chief of the volunteer fire department. The cause of the fire is unknown.

NEARLY DROWNED.

Ernest Godbe's Four Children Have a Very Narrow Escape.

A narrow escape from a terrible accident occurred on Silver Lake at Brighton on Tuesday. Mr. Ernest Godbe, with his four little children, took a raft and went out on the lake fishing. A sudden wind came up and the raft being old and rotten, came apart, and Mr. Godbe and his four children were precipitated into the cold water. The little ones, clinging around their father's neck, and he not being able to disengage himself began to sink. He then had no other recourse than to take two of the children and swim with them to a shallow place, leaving the others. Both would undoubtedly have drowned before the agonized father could return to aid them, had not the man who had heard their cries come to their rescue, saving one of the children just as she was going down the third time. It took a long time to revive her, but a telephone message states that she finally recovered.

Silver Lake is very deep and it has been the scene of more than one drowning in the past. Mr. Godbe's terrible experience should be a warning to people using the old rafts on the lake, as they have been used for years and it is no one's business to keep them in repair.

Heber Anderson of Sandy has returned from a trip into the Wood River country, where he reports a fall of three feet of snow up in the mountains, and a fall of one inch through the valleys. Halley people were out in their winter clothing, and sleighing was talked of. However, the snow was considered a mighty good thing for the agricultural interests, and the ranges will profit greatly by it.

Col. Daniel Henny, a prominent citizen of Fairbury, Neb., has returned home after a very pleasant sojourn of a year in this city with his daughter, Mrs. John Wilhart of 725 Eleventh East street, and will tell his townspeople that Salt Lake is one of the good places of the earth. Mrs. Wilhart has one of the most attractive homes in town, and has stood so persistently for the Great Salt Lake, and Col. Henny was never tired of admiring the beauties of the scenic panorama from the spacious porch of his daughter's residence.

PEOPLE WHO ARE PASSING

Hon. Bird S. Coler, former comptroller of the city of New York, is a guest at the Knutsford, on a transcontinental trip. Mr. Coler is a Democratic Roosevelt, and has stood so persistently for honesty in politics and civic righteousness that the Tammany politicians found they could not use him, and so refused to nominate him for comptroller previous to the last election when the Republicans and reformers carried the city against Croker and Tammany. Mr. Coler had the satisfaction of seeing the new comptroller, Mr. Bird S. Coler, stand high in the estimation of good citizens in New York City irrespective of party.

Four or five of his neighbors testified that the place was "something awful and dreadful." STEREOTYPING ACCIDENT.

It "Pied a Form" and Caused Delay in Issuing "News" Today.

George Rosburg, a helper in the Deseret News stereotyping room, had a narrow escape from serious injury this afternoon while taking one of the newspaper forms off the elevator that leads from the composing room to the press below. Just how the accident happened is not at this time forthcoming, but the supposition of the pressman is that the young man pulled the heavy table and form, which weigh in the neighborhood of 400 pounds, off the elevator, without first ascertaining whether the power was shut off. The consequence was that by the time Rosburg had the two front wheels of the elevator the lift commenced to ascend with the result that the entire affair was tipped over on top of him, striking him across the chest and pinning him to a pile of plates. The young man was insensible when the forms were lifted off. Dr. J. S. Richards was summoned and said that no bones were broken and that the young man was not seriously hurt. He was sent home on Fourth and D streets in a carriage. Owing to the accident, which completely "pied" the editorial form, the first edition of the "News" was abandoned for today.
